# Visa Worldwide Pte. Limited

Registration Number: 200719281K

Annual Report Year ended 30 September 2023

KPMG LLP (Registration No. T08LL1267L), an accounting limited liability partnership registered in Singapore under the Limited Liability Partnerships Act 2005 and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

# **Directors' statement**

We are pleased to submit this annual report to the member of Visa Worldwide Pte. Limited (the 'Company') together with the audited financial statements for the financial year ended 30 September 2023.

In our opinion:

- (a) the financial statements set out on pages FS1 to FS60 are drawn up so as to give a true and fair view of the financial position of the Company as at 30 September 2023 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date in accordance with the provisions of the Companies Act 1967 and Financial Reporting Standards in Singapore; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

# Directors

The directors in office at the date of this statement are as follows:

| Christopher Choong-Won Suh | (Appointed on 20 September 2023) |
|----------------------------|----------------------------------|
| Christopher James Clark    |                                  |
| Aakash Degwekar            | (Appointed on 20 September 2023) |
| Tan Kay Huat Andrew        |                                  |
| Karpin Stephen David       | (Appointed on 30 November 2023)  |

# **Directors' interests**

Pursuant to Section 202 of the Companies Act 1967 (the 'Act'), the Company is relieved from the requirements of Section 201(16) and paragraph 9 of the Twelfth Schedule of the Act pertaining to the form and content of the report as mentioned therein, to disclose their interests in share and share options in the Company's ultimate holding company, pursuant to the Accounting and Corporate Regulatory Authority's Practice Direction No. 4 of 2005 addendum issued on 10 March 2006.

Except as disclosed in this statement, no director who held office at the end of the financial year had interests in shares, debentures, warrants or share options of the Company, or of related corporations, either at the beginning of the financial year, or date of appointment if later, or at the end of the financial year.

Neither at the end of, nor at any time during the financial year, was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

### **Share options**

During the financial year, there were:

- (i) no options granted by the Company to any person to take up unissued ordinary shares of the Company; and
- (ii) no shares issued by virtue of any exercise of option to take up unissued shares of the Company.

As at the end of the financial year, there were no unissued shares of the Company under options.

# Auditors

The auditors, KPMG LLP, have indicated their willingness to accept re-appointment.

On behalf of the Board of Directors

# Independent auditors' report

Member of the Company Visa Worldwide Pte. Limited

# Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Visa Worldwide Pte. Limited ('the Company'), which comprise the statement of financial position as at 30 September 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages FS1 to FS60.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 ('the Act') and Financial Reporting Standards in Singapore ('FRSs') so as to give a true and fair view of the financial position of the Company as at 30 September 2023 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

# Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ('SSAs'). Our responsibilities under those standards are further described in the 'Auditors' responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ('ACRA Code') together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

Management is responsible for the other information contained in the annual report. Other information is defined as all information in the annual report other than the financial statements and our auditors' report thereon.

We have obtained all other information prior to the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

KPMG LLP (Registration No. T08LL1267L), an accounting limited liability partnership registered in Singapore under the Limited Liability Partnerships Act 2005 and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

# Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

# Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

### Significant non-cash transactions

During the financial year ended 30 September 2022:

- the Company declared dividends of US\$1,635,000,000 to Visa International Holdings Limited ("VIHL") which were settled in cash. Out of dividends declared in 2021 of US\$2,100,000,000, US\$199,947,000 was paid in cash and the remaining US\$1,900,053,000 was settled in kind by assigning debt securities to VIHL in 2021.
- loan amounts due from related corporations of US\$70,000,000, were settled though cash received of US\$3,146,000 and the taking over of liabilities totalling US\$66,854,000 by other entities within the Visa group, which led the unpaid loans of US\$66,854,000 to be reclassified to intercompany receivables where they remained as at 30 September 2022.

The financial statements were authorised for issue by the Board of Directors on 20 December 2023.

# **1** Domicile and activities

Visa Worldwide Pte. Limited (the 'Company') is a company incorporated in Singapore and has its principal place of business at 71 Robinson Road #08-01, Singapore 068895.

The principal activities of the Company include provision of payments technology that enables fast, secure and reliable electronic payments which facilitates commerce through the transfer of value and information among a network of consumers, merchants, financial institutions, businesses, strategic partners and government entities across the Asia Pacific region.

The immediate holding company of the Company is Visa International Holdings Limited, incorporated in the United Kingdom. The ultimate holding company and ultimate controlling party is Visa Inc., incorporated in the United States of America.

# 2 Basis of preparation

#### 2.1 Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore ('FRS'). The changes to significant accounting policies are described in note 2.5.

### 2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

# 2.3 Functional and presentation currency

These financial statements are presented in United States Dollars ('USD' or 'US\$') which is the Company's functional currency. All financial information presented in USD has been rounded to the nearest thousand, unless otherwise stated.

#### 2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with FRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

# 2 **Basis of preparation (continued)**

# 2.4 Use of estimates and judgements (continued)

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included Notes 3.11, 5 – measurement of volume and support incentives.

### Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Company recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

# 2.5 Changes in accounting policies

#### New standards and amendments

The Company has applied the following FRSs, amendments to and interpretations of FRS for the first time for the annual period beginning on 1 October 2022:

- Amendment to FRS 116: COVID-19-Related Rent Concessions beyond 30 June 2021
- Amendment to FRS 103: Reference to the Conceptual Framework
- Amendment to FRS 16: Property, Plant and Equipment Proceeds before Intended Use
- Amendment to FRS 37: Onerous Contracts Cost of Fulfilling a Contract
- Annual Improvements to FRSs 2018 2020

The application of these amendments to standards and interpretations does not have a material effect on the financial statements.

# **3** Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained in note 2.5, which addresses changes in accounting policies.

# 3.1 Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiaries are stated in the Company's statement of financial position at cost less accumulated impairment losses.

# **3.2** Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on translation are generally recognised in profit or loss. However, foreign currency differences arising from the translation of the following items are recognised in OCI:

- an equity investment designated as at fair value through other comprehensive income ('FVOCI'); and
- qualifying cash flow hedges to the extent that the hedges are effective.

# **3.3** Financial instruments

# (i) Recognition and initial measurement

#### Non-derivative financial assets and financial liabilities

Trade receivables and debt investments issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss ('FVTPL'), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

# **3.3** Financial instruments (continued)

### (i) **Recognition and initial measurement (continued)**

#### Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment or FVOCI – equity investment.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

#### Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### Debt investments at FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### Equity investments at FVOCI

On initial recognition of an equity investment that is not held-for-trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

# **3.3** Financial instruments (continued)

### (ii) Classification and subsequent measurement

#### Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and how information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held-for-trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

# Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

# **3.3** Financial instruments (continued)

# (ii) Classification and subsequent measurement (continued)

### Non-derivative financial assets: Subsequent measurement and gains and losses

### Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

# Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

# Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

# Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Directly attributable transaction costs are recognised in profit or loss as incurred.

Other financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

# (iii) Derecognition

#### **Financial assets**

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

# **3.3** Financial instruments (continued)

### (iii) Derecognition (continued)

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets.

# **Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

# (iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### (v) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments. For the purpose of the statement of cash flows, bank overdrafts that are repayable on demand and that form an integral part of the Company's cash management are included in cash and cash equivalents.

# (vi) Customer collateral

The Company holds cash deposits and other non-cash assets from certain clients in order to ensure their performance of settlement obligations arising from Visa payment services are processed in accordance with the Company's rules. The cash collateral assets are restricted and fully offset by corresponding liabilities and both balances are presented in the balance sheet.

# **3.3** Financial instruments (continued)

### (vii) Derivative financial instruments and hedge accounting

The Company holds derivative financial instruments to hedge its foreign currency risk exposure.

The Company's policy is to enter into foreign exchange forward derivative contracts to manage the variability in expected future cash flows attributable to changes in foreign exchange rates. Such cash flow exposures result from portions of forecasted revenues and expenses being denominated in or based on currencies other than USD. The Company's rolling hedge strategy seeks to reduce the exchange rate risk from forecasted net exposure of revenue receipts derived from and payments made in foreign currencies during the immediately following 12 months. The Company does not use foreign exchange forward contracts for speculative or trading purposes.

On initial designation of the derivative as the hedging instrument, the Company formally documents the relationships between the hedging instrument and the hedged item, including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, together with the methods that will be used to assess the effectiveness of the hedging relationship.

Derivatives are initially measured at fair value and any attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

#### Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of the changes in the fair value of the derivative is recognised in other comprehensive income and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognised in other since the fair value of the derivative is recognised in the fair value of the

When the hedged item is a non-financial asset, the amount accumulated in equity is retained in other comprehensive income and reclassified to profit or loss in the same period or periods during which the non-financial item affects profit or loss. In other cases as well, the amount accumulated in equity is reclassified to profit or loss in the same period that the hedged item affects profit or loss. If the hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the balance in equity is reclassified to profit or loss.

### **3.3** Financial instruments (continued)

#### (vii) Derivative financial instruments and hedge accounting (continued)

#### Other non-trading derivatives

When a derivative financial instrument is not designated in a hedge relationship that qualifies for hedge accounting, all changes in its fair value are recognised immediately in profit or loss.

#### (viii) Share capital

#### **Ordinary** shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

#### 3.4 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### (i) As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

# **3.4** Leases (continued)

# (i) As a lessee (continued)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'trade and other payables' in the statement of financial position.

# Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

# 3.5 Impairment

# (i) Non-derivative financial assets

The Company recognises loss allowances for Expected Credit Loss ('ECLs') on:

- financial assets measured at amortised cost; and
- debt investments measured at FVOCI.

# **3.5** Impairment (continued)

### (i) Non-derivative financial assets (continued)

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

### Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs.

#### General approach

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment that includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

# **3.5** Impairment (continued)

# (i) Non-derivative financial assets (continued)

### Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

# Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 90 days past due; or
- it is probable that the debtor will enter bankruptcy or other financial reorganisation.

# Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of these assets.

For debt investments at FVOCI, loss allowances are charged to profit or loss and recognised in OCI.

# Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

# (ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit ('CGU') exceeds its estimated recoverable amount.

# **3.5** Impairment (continued)

### (ii) Non-financial assets (continued)

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The Company's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a *pro rata* basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

# **3.6 Property, plant and equipment**

# (i) **Recognition and measurement**

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

# **3.6 Property, plant and equipment (continued)**

### (ii) Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

# (iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment, unless it is included in the carrying amount of another asset.

Depreciation is recognised from the date that the property, plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative years are as follows:

| Leasehold improvements       | Shorter of lease term or 6 years |
|------------------------------|----------------------------------|
| Furniture and fittings       | 7 years                          |
| Office equipment             | 5 years                          |
| Telecommunications equipment | 3 to 5 years                     |
| Computer equipment           | 3 to 7 years                     |
| Security equipment           | 5 years                          |
| Software                     | 3 to 7 years                     |

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

# **3.7** Intangible assets

#### (i) **Recognition and measurement**

Intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

# **3.7** Intangible assets (continued)

#### (ii) Amortisation

Amortisation is calculated based on the cost of the asset, less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use.

The estimated useful lives for the current and comparative years are as follows:

Customer relationships 4 to 5 years

Amortisation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

### **3.8** Employee benefits

#### (i) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

#### (ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### *(iii)* Share-based payments

The equity and equity-related compensation plans allow the Company's employees to acquire a certain number of options and shares of the ultimate holding company at a predetermined price. The fair value of options and shares granted is recognised as compensation expense, net of estimated forfeitures. Compensation cost for awards with only service condition is recognised on a straight-line basis over the requisite service period, which is generally the vesting period. Compensation cost for performance-based shares is initially estimated based on target performance and adjusted as appropriate throughout the performance period.

The fair value is measured at grant date, and compensation expense is recognised over the requisite service period during which the employees become unconditionally entitled to the options and shares. On a quarterly basis, the Company reviews the reasonableness of the forfeiture rate used. Any change in the forfeiture rate results in a true-up of compensation expense previously recognised for unvested options and shares in the period of change.

# **3.8** Employee benefits (continued)

### *(iv) Employee leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

# (v) Termination benefits

Termination benefits are recognised as an expense when the Company is committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the Company has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

# 3.9 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

# 3.10 Revenue

The Company's revenue comprises service fees, data processing fees, international transaction fees, royalty fees (collectively, 'payment services revenue'), and other revenues, reduced by client incentives. As a payment network service provider, the Company's performance obligation ('PO') to the customer is to stand ready to provide continuous access to the payment network over the contractual term.

Service fees consist mainly of revenues earned for services provided in support of client usage of Visa payment services. Current quarter service revenues are primarily assessed using a calculation of current quarter's pricing applied to the prior quarter's payments volume. The Company also earns revenues from assessments designed to support ongoing acceptance and volume growth initiatives, which are recognised in the same period the related volume is transacted.

Data processing fees consist of revenues earned for authorisation, clearing, settlement, network access and other maintenance and support services that facilitate transaction and information processing among the Company's customers. Data processing revenues are recognised in the same period the related transactions occur or services are performed.

# **3.10 Revenue (continued)**

International transaction fees are earned for cross-border transaction processing and currency conversion activities. Cross-border transactions arise when the country of origin of the issuer or financial institution is different from that of the beneficiary. International transaction revenues are recognised in the same period the cross-border transactions occur or services are performed.

Royalty fees are assessed in relation to the right to use Visa's licensed trademarks in connection with customers' Visa card program. Royalty fees are recognised in the same period the related transactions occur or services are performed.

Other revenues consist mainly of value-added services, fees for account holder services, certification, licensing and product enhancements, such as extended account holder protection and concierge services. These fees are initially recognised as deferred revenue when advance payments are made by customers. Other revenues are recognised in accordance to when the related POs are satisfied.

The Company recognises payment services revenue at the transaction price allocated to the satisfied PO. Fees are collected from customers on a monthly basis on the 15<sup>th</sup> day of the subsequent month the services are provided based on agreed terms with the customers through pricing agreements.

The transaction price is allocated to each PO in the contract on the basis of the relative standalone selling prices of the promised services. The individual standalone selling price of a service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the POs if it relates specifically to those POs.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price is variable based primarily upon the amount and type of transactions and payments volume on Visa's products. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

# 3.11 Volume and support incentives

The Company enters into long-term contracts with financial institution clients, merchants and strategic partners for various programs designed to increase revenue by growing payments volume, increasing Visa product acceptance, winning merchant routing transactions over to Visa's network and driving innovation. These incentives are primarily accounted for as reductions to revenues. Client incentives are accounted for as operating expenses if the payment is in exchange for a distinct good or service provided by the customer and the fair value of the distinct good or service received by the Company can be reasonably estimated.

# **3.11** Volume and support incentives (continued)

The Company generally capitalises upfront and fixed incentive payments under these agreements and amortises the amounts as a reduction to revenues rateably over the contractual term. Incentives that are earned by the customer based on performance targets are recorded as reductions to revenues based on management's estimate of each client's future performance. These accruals are regularly reviewed and estimates of performance are adjusted, as appropriate, based on changes in performance expectations, actual client performance, amendments to existing contracts or the execution of new contracts. The cumulative impact of a revision in estimates is recorded in the period such revisions become probable and estimable.

# **3.12** Finance income and costs

Finance income and finance costs include interest income on funds invested; interest expense on borrowings and lease liabilities; hedge ineffectiveness recognised in profit or loss; the foreign currency gain or loss on financial assets and financial liabilities; the net gain or loss on the disposal of debt investments measured at FVOCI; impairment losses (and reversals) on debt investments carried at amortised cost or FVOCI; and the reclassification of net gains and losses previously recognised in OCI on cash flow hedges of interest rate risk and foreign currency risk for borrowings.

Interest income or expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

# 3.13 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

# **3.13** Tax (continued)

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that they will not reverse in the foreseeable future.

Temporary differences in relation to a right-of-use asset and a lease liability for a specific lease are regarded as a net package (the lease) for the purpose of recognising deferred tax.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

# 3.14 New standards and interpretations not adopted

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 October 2022 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

The following new FRSs, interpretations and amendments to FRSs are not expected to have a significant impact on the Company's financial statements.

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to FRS 12)
- Classification of Liabilities as Current or Non-current (Amendments to FRS 1)
- FRS 117 Insurance Contracts and amendments to FRS 117 Insurance Contracts
- Disclosure of Accounting Policies (Amendments to FRS 1 and FRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to FRS 8)

| At 30 September 2023                              | 4,089                                 | 729                                   | 186                             | 258                                    | 11,292                            | 173                               | 47                   | 41,951                         | 58,725            |

#### 5 Volume and support incentives

|   | 2023<br>US\$'000 | 2022<br>US\$'000 |
|---|------------------|------------------|
| At 1 October<br>Current year amount charged to profit or loss | (821,590)        | (626,850)        |
| - Volume and support incentives                               | (2,517,830)      | (1,905,366)      |
| Reclassification to deferred revenue (Note a)                 | 150,276          | 31,682           |
| Payments  | 2,056,765        | 1,678,944        |
| At 30 September, net liability                                | (1,132,379)      | (821,590)        |
| Volume and support incentives:                                |                  |                  |
| - Non-current assets  | 544,735          | 496,409          |
| - Current assets  | 283,391          | 254,750          |
| - Non-current liabilities                                     | (64,853)         | (68,769)         |
| - Current liabilities   | (1,895,652)      | (1,503,980)      |
|   | (1,132,379)      | (821,590)        |

Volume and support incentive amounts on the balance sheet are estimated based on existing customer performance and management's estimate of each customer's future performance, amongst other variables. These estimates require a degree of judgement and the application of assumptions.

Note (a)

Volume and support incentives balance is reclassified to deferred revenue upon the customer's election to receive the incentive through value-added-services.

#### 6 **Investment securities**

|   | 2023<br>US\$'000  | 2022<br>US\$'000  |
|---|-------------------|-------------------|
| Debt securities, at FVOCI<br>Equity investment in a related corporation, at FVOCI | 611,331<br>11     | 378,044<br>11     |
| Equity investment in a related corporation, at 1900er                             | 611,342           | 378,055           |
| Non-current<br>Current  | 48,548<br>562,794 | 329,542<br>48,513 |
|   | 611,342           | 378,055           |

FVOCI debt securities with a carrying amount of US\$611,331,000 as at 30 September 2023 (2022: US\$378,044,000) yield coupon interest rates of 0.000% to 3.500% (2022: 0.000% to 3.875%).

The Company's exposures to credit, currency and interest rate risks relating to investment securities are disclosed in Note 17.

# 7 Trade and other receivables

|  | 2023<br>US\$'000 | 2022<br>US\$'000 |
|--|------------------|------------------|
| Trade receivables                              | 383,082          | 290,717          |
| Allowance for impairment losses                | (877)            | (377)            |
|  | 382,205          | 290,340          |
| Amounts due from subsidiaries (note a)         | 57,294           | 88,692           |
| Amounts due from related corporations (note a) | 94,932           | 28,496           |
| Other receivables                              | 166,673          | 402,190          |
|  | 701,104          | 809,718          |
| Trade and other receivables:                   |                  |                  |
| Non-current                                    | 142,116          | 253,033          |
| Current  | 558,988          | 556,685          |
|  | 701,104          | 809,718          |

#### Note (a)

The amounts are non-trade in nature, unsecured, interest-free and repayable on demand or at short notice.

Included in 'Other receivables' are withholding and other tax receivables amounting to US\$146,671,000 (2022: US\$345,089,000).

The Company's exposures to credit and currency risks, and impairment losses relating to trade and other receivables are disclosed in Note 17.

# 8 Subsidiaries

|                             | 2023<br>US\$'000 | 2022<br>US\$'000 |
|-----------------------------|------------------|------------------|
| Equity investments, at cost | 217,274          | 217,274          |

During the financial year ended 30 September 2022, the Company subscribed for and was allotted 82,178, 4,282,267 and 432,953 ordinary shares in PT Visa Worldwide Indonesia, Visa AP (Australia) Pty Ltd and Visa Worldwide (New Zealand) Limited via offsetting intercompany receivables of US\$4,920,000, US\$1,000 and US\$8,000,000, respectively.

# 8 Subsidiaries (continued)

|                    | 1,687,812        | 1,633,045        |

# **10 Derivative financial instruments**

|  | Notional<br>amount<br>US\$'000 | Positive<br>fair value<br>US\$'000 | Negative<br>fair value<br>US\$'000 |
|--|--------------------------------|------------------------------------|------------------------------------|
| <b>2023</b> Forward foreign exchange contracts | 1,685,154                      | 52,262                             | 7,423                              |
| <b>2022</b> Forward foreign exchange contracts | 994,076                        | 81,872                             | 6,617                              |

The Company enters into forward foreign exchange contracts to hedge certain operational cash flow exposures resulting from changes in foreign currency exchange rates that are expected to occur and affect profit or loss in the 12 months from the reporting date. These forward foreign exchange currency contracts have maturity dates that fall within the expected occurrence period of these operational transactions.

# 11 Share capital

| Fully paid ordinary shares, with no par value: | 2023<br>No. of<br>shares | 2022<br>No. of<br>shares |
|--|--------------------------|--------------------------|
| In issue at 1 October                          | 8,967,661                | 8,967,651                |
| Additions during the year                      | _                        | 10                       |
| In issue at 30 September                       | 8,967,661                | 8,967,661                |

The holder of ordinary shares is entitled to receive dividends as declared from time to time, and is entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

In the previous year, pursuant to a resolution dated 30 September 2022, the Company approved the issue of 10 ordinary shares to its immediate holding company at an issue price of \$784.

Pursuant to resolutions dated 19 October 2022, 26 January 2023, 26 April 2023 and 24 July 2023, the Company declared dividends to Visa International Holdings Limited amounting to US\$3,130,000,000 (2022: US\$1,635,000,000).

#### Capital management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximise shareholders' value. Capital comprises total shareholder's equity.

The Company manages its capital structure which comprises all components of equity and makes alignment to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may align the dividend payment to shareholders, return capital to shareholders or issue new shares.

There were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.

# 12 Reserves

|                    | 2023<br>US\$'000 | 2022<br>US\$'000 |
|--------------------|------------------|------------------|
| Hedging reserve    | 23,486           | 85,526           |
| Fair value reserve | (9,344)          | (16,292)         |
| Other reserve      | (133,314)        | (132,174)        |
|                    | (119,172)        | (62,940)         |

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments relating to forecasted transactions.

Fair value reserve comprises the cumulative net change in the fair value of equity investments designated at FVOCI and the cumulative net change in the fair value of debt securities at FVOCI until the assets are derecognised or reclassified.

# 12 **Reserves (continued)**

Other reserve represents equity-settled share-based payments granted to employees. The reserves are made up of the cumulative value of services received from employees recorded over the vesting period commencing from the grant date of the equity-settled share-based payments, and reduced by the recharge from the ultimate holding company.

# **13** Trade and other payables

| 2023<br>US\$'000 | 2022<br>US\$'000   |

| Investment   |                                     |   |  |  |   |  |  |
| securities   | 1,507                               | —   | 3,218  | 4,725                                  | —   | (1,423)  | 3,302                                  |
| Accrued operating  | 820                                 | 272   |  | 1 102                                  | C 201   |  | 7 402                                  |
| expenses   | 830                                 | 272   | -  | 1,102                                  | 6,301   | - (1.422)  | 7,403                                  |
| -  | 2,337                               | 272   | 3,218  | 5,827                                  | 6,301   | (1,423)  | 10,705                                 |
| Deferred tax<br>liabilities<br>Derivative financial<br>instruments<br>Property, plant and<br>equipment | (1,116)<br>(188)<br>(1,304)         |   | (669)  | (1,785)<br>(140)<br>(1,925)            | (1,276)<br>(1,276)  | (3,946)  | (5,731)<br>(1,416)<br>(7,147)          |
| Net deferred tax<br>assets/<br>(liabilities)   | 1,033                               | 320   | 2,549  | 3,902                                  | 5,025   | (5,369)  | 3,558                                  |

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority.

# **15** Deferred tax assets/(liabilities) (continued)

#### Estimation of deferred tax asset/(liability)

Deferred taxes are calculated by applying the substantially enacted statutory tax rate applicable for future years on temporary differences. Potential tax rate changes or level of temporary differences which differs from the assumptions may result in the deferred tax assets/(liabilities) not being reversed at the tax rates that are applied and consequently a different asset/(liability) has to be recorded.

# **16 Deferred revenue**

Contract liabilities primarily relate to advance consideration received from customers for the services rendered.

Significant changes in the deferred revenue balance during the period are as follows.

|  | Contract<br>liabilities<br>2023<br>US\$'000 | Contract<br>liabilities<br>2022<br>US\$'000 |
|--|---|---|
| Revenue recognised that was included in the contract liability |   |   |
| balance at the beginning of the year                           | (266,660)                                   | (254,771)                                   |
| Increases due to amount billed, excluding amounts recognised   |   |   |
| as revenue during the year                                     | 138,904                                     | 98,005                                      |
| Increases due to deferral of value-added services revenue,     |   |   |
| excluding amounts recognised as revenue during the year        | 228,766                                     | 168,655                                     |

#### Transaction price allocated to the remaining performance obligations

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially satisfied) at the reporting date.

|  | 2024      | 2025      | 2026 and after | Total     |
|--|-----------|-----------|----------------|-----------|
|  | US\$'000  | US\$'000  | US\$'000       | US\$'000  |
| <b>30 September 2023</b><br>Value-added services revenue | (163,603) | (128,789) | (416,943)      | (709,335) |
|  | 2023      | 2024      | 2025 and after | Total     |
|  | US\$'000  | US\$'000  | US\$'000       | US\$'000  |
| <b>30 September 2022</b><br>Value-added services revenue | (41,140)  | (65,200)  | (138,163)      | (244,503) |

The Company has applied the practical expedient to not disclose the remaining performance obligations related to payment services revenue.

# 17 Financial risk management

#### Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

#### Risk management framework

Risk management is integral to the whole business of the Company. The Company has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. Management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

#### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Company policies are aimed at minimising such losses, and require that deferred terms are only granted to customers who demonstrate an appropriate payment history and/or satisfy credit worthiness procedures. The Company limits individual trade debtor counterparty exposure depending on the size and credit worthiness of the customer. At the reporting date, the Company is not exposed to significant credit risk.

The Company indemnifies its financial institution customers for settlement losses suffered due to failure of any other customer to honour Visa-branded cards and payment products processed in accordance with Visa's operating regulations. In certain instances, the Company may indemnify customers even in situations in which a transaction is not processed by the system. This indemnification creates settlement risk for the Company due to the difference in timing between the date of a payment transaction and the date of subsequent settlement. No material loss related to settlement risk has been incurred in recent years.

To manage the Company's exposure in the event the customers fail to fund their settlement obligations, the Company has a credit risk policy with a set of credit standards and risk control measures that are consistently applied. The Company regularly evaluates its customers to assess risk. In certain instances, the Company may require a customer to post collateral or provide other guarantees. If a customer becomes unable or unwilling to meet its obligations, the Company is able to draw upon such collateral or guarantee in order to minimise any potential loss.

The exposure to settlement losses is accounted for as a settlement risk guarantee. The fair value of the settlement risk guarantee is estimated using the Company's proprietary model. Key inputs to the model include the probability of customers becoming insolvent, statistically derived loss factors based on historical experience and estimated settlement exposures at period end.

#### Credit risk (continued)

Settlement risk (or exposure) is estimated based on the sum of the following inputs: (1) average daily issuing volumes during the quarter multiplied by the estimated number of days to settle plus a safety margin; (2) four months of the rolling acquiring chargebacks volume; and (3) average daily original credit volume initiated by the acquirer during the quarter multiplied by the estimated number of days to settle plus a safety margin.

The Company's settlement exposure is limited to the amount of unsettled Visa payment transactions at any point in time. As at 30 September 2023, the Company's estimated maximum settlement exposure was approximately US\$8.2 billion (2022: US\$7.4 billion). The Company maintains and regularly reviews global settlement risk policies and procedures to manage settlement exposure, which may require clients to post collateral if certain credit standards are not met. At 30 September 2023 and 2022, the Company held the following collateral to manage settlement exposure:

|                   | 2023<br>US\$'000 | 2022<br>US\$'000 |
|-------------------|------------------|------------------|
| Cash collateral   | 260,913          | 230,727          |
| Letters of credit | 442,717          | 353,441          |
| Guarantees        | 108,574          | 83,518           |
|                   | 812,204          | 667,686          |

Letters of credit are provided primarily by customer financial institutions to serve as irrevocable guarantees of payment. Guarantees are provided primarily by parent financial institutions to secure the obligations of their subsidiaries. The Company routinely evaluates the financial viability of institutions providing the guarantees.

The fair value of the settlement risk guarantee is estimated using a proprietary model which considers statistically derived loss factors based on historical experience, estimated settlement exposures at period end and a standardised grading process for clients (using, where available, third-party estimates of the probability of customer failure). Historically, the Company has experienced minimal losses, which has contributed to an estimated probability-weighted value of the guarantee of approximately US\$3,000,000 (2022: US\$3,000,000). The fair value of the settlement risk guarantee is reflected in accrued liabilities on the balance sheet.

#### Trade and other receivables

#### Exposure to credit risk

The exposure to credit risk for trade and other receivables (excluding tax receivables) at the reporting date by geographic region was as follows:

|                          | 2023<br>US\$'000 | 2022<br>US\$'000 |
|--------------------------|------------------|------------------|

| Past due more than one year | 196                                     | (196)                                    | Yes                |
|                             | 465,006                                 | (377)                                    |                    |

#### Movements in allowance for impairment in respect of trade receivables

The movements in the allowance for impairment in respect of trade receivables were as follows:

|  | Lifeti<br>ECL – credi |                  |
|--|-----------------------|------------------|
|  | 2023<br>US\$'000      | 2022<br>US\$'000 |
| At 1 October   | (377)                 | (633)            |
| (Impairment loss)/Reversal of impairment loss on trade and other receivables | (560)                 | 256              |
| Amounts written off  | 60                    | _                |
| At 30 September  | (877)                 | (377)            |

#### Cash and cash equivalents and customer collateral

The Company held cash and cash equivalents and customer collateral of US\$1,687,812,000 and US\$260,913,000 respectively as at 30 September 2023 (2022: US\$1,633,045,000 and US\$230,211,000 respectively) which represents its credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties which are rated from A to B- (2022: P-1), based on *Moody's* ratings. Impairment on cash and cash equivalents and customer collateral has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents and customer collateral have low credit risk based on the external credit ratings of the counterparties. No impairment loss allowance was provided for cash and cash equivalents and customer collateral.

#### **Credit risk (continued)**

### FVOCI debt investments

The Company limits its exposure to credit risk on investments held by investing only in U.S Treasury or U.S government sponsored agencies that have a credit rating of Aaa (2022: Aaa) from *Moody's*.

12-month and lifetime probabilities of default are based on historical data supplied by *Moody's* for each credit rating. Loss given default (LGD) parameters generally reflect an assumed recovery rate of approximately 40% based on *Moody's* debt recovery rates, except when a security is credit-impaired, in which case the estimate of loss is based on the instrument's current market price and original effective interest rate.

The credit rating of the debt investments is Aaa (2022: Aaa) and impairment has been measured on the 12-month expected loss basis which reflects the low credit risk of the exposures. No impairment loss was recognised on these balances.

#### Derivative financial instruments

The derivative financial instruments are entered into with bank and financial institution counterparties with strong credit ratings.

#### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.

The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements:

|   |                                | Cash flows                            |                              |                                    |                                  |  |  |  |  |

\* Trade and other payables exclude accrued compensation.

#### Market risk

Market risk is the potential economic loss arising from adverse changes in market factors. The Company's exposure to financial market risks results primarily from fluctuations in foreign currency rates and interest rates. The Company does not hold or enter into derivatives or other financial instruments for speculative purposes. Aggregate risk exposures are monitored on an ongoing basis, and cash and cash equivalents are not considered to be subject to significant interest rate risk due to the short period of time to maturity.

### Foreign currency risk

The Company is exposed to foreign currency risk on revenue and operating expenses that are denominated in currencies other than USD.

The Company enters into forward foreign exchange contracts to hedge certain operational ("cash flow") exposures resulting from changes in foreign currency exchange rates. Such cash flow exposures result from portions of forecasted revenues and expenses being denominated in or based on currencies other than USD.

#### Market risk (continued)

### Exposure to foreign currency risk

The Company's exposure to foreign currency risk was as follows:

|                        | AUD<br>US\$'000 | CNY<br>US\$'000 | EUR<br>US\$'000 | GBP<br>US\$'000 | HKD<br>US\$'000            | IDR<br>US\$'000 | INR<br>US\$'000 | JPY<br>US\$'000 | KRW<br>US\$'000 | NZD<br>US\$'000 | SGD<br>US\$'000 | THB<br>US\$'000 | TWD<br>US\$'000 | PHP<br>US\$'000         | MYR<br>US\$'000 | VND<br>US\$'000 |

#### Sensitivity analysis

A 10 percent strengthening of the USD against the following currencies at the reporting date would have increased/(decreased) profit or loss and equity by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables remain constant.

| THB          | 1,391                              | 4,307  | 655                                | 1,244  |
| TWD          | 213                                | _  | 236                                | _  |
| PHP          | 709                                | _  | 397                                | _  |
| MYR          | 2,238                              | _  | 1,591                              | _  |
| VND          | 99                                 | _  | 79                                 | _  |
|              | 94,698                             | 168,516  | 62,655                             | 99,408   |

A 10 percent weakening of the USD against the above currencies would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

#### Interest rate risk

The Company has no interest-bearing debt obligation. The Company's direct exposure to changes in interest rates relates primarily to investment securities which is managed through the ultimate holding company. Exposure to interest rate risk is monitored on an ongoing basis and the Company endeavours to keep the net exposure at an acceptable level.

#### Market risk (continued)

### Interest rate risk (continued)

#### Managing interest rate benchmark reform and associated risks

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates (IBORs) with alternative nearly risk-free rates (referred to as 'interest rate benchmark reform'). The Company does not have exposures to IBORs on its financial instruments that will be replaced or reformed as part of these market-wide initiatives.

Management monitors and manages the Company's transition to alternative rates. The management evaluates the extent to which contracts reference IBOR cash flows, whether such contracts will need to be amended as a result of interest rate benchmark reform and how to manage communication about interest rate benchmark reform with counterparties. The management reports to the Company's Board of Directors quarterly and collaborates with other business functions as needed. It provides periodic reports to the Board of Directors of interest rate risk and risks arising from interest rate benchmark reform.

### Profile

At the reporting date, the interest rate profile of the interest-bearing financial instruments was:

|                           | 2023<br>US\$'000 | 2022<br>US\$'000 |
|---------------------------|------------------|------------------|
| Fixed rate instruments    |                  |                  |
| Investment securities     | 611,331          | 378,044          |
| Cash and cash equivalents | 250,879          | 299,648          |
|                           | 862,210          | 677,692          |
| Variable rate instruments |                  |                  |
| Cash and cash equivalents | 1,348,476        | 1,203,151        |
| -                         | 1,348,476        | 1,203,151        |
|                           |                  |                  |

#### Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss.

#### Market risk (continued)

#### Cash flow sensitivity analysis for variable rate instruments

A change of 10 basis points in interest rates at the reporting date would have increased/(decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

|                             | Profit o                      | or loss                       |
|-----------------------------|-------------------------------|-------------------------------|
|                             | 10 bp<br>increase<br>US\$'000 | 10 bp<br>decrease<br>US\$'000 |

| Cash and cash equivalents   | 1,203                         | (1,203)                       |
| Cash flow sensitivity (net) | 1,203                         | (1,203)                       |

#### Offsetting financial assets and financial liabilities

The disclosures set out in the table below include financial assets and financial liabilities that:

- are offset in the Company's balance sheet; or
- are subject to an enforceable master netting arrangement, irrespective of whether they are offset in the balance sheet.

Financial instruments such as trade receivables and trade payables are not disclosed in the table below unless they are offset in the balance sheet.

The Company's derivative transactions that are not transacted on an exchange are entered into under International Swaps and Derivatives Association ("ISDA") Master Netting Agreements. In general, under such agreements the amounts owed by each counterparty that are due on a single day in respect of all transactions outstanding in the same currency under the agreement are aggregated into a single net amount being payable by one party to the other. In certain circumstances, for example when a credit event such as a default occurs, all outstanding transactions under the agreement are terminated, the termination value is assessed and only a single net amount is due or payable in settlement of all transactions.

The above ISDA agreements do not meet the criteria for offsetting in the balance sheet. This is because they create a right of set-off of recognised amounts that is enforceable only following an event of default, insolvency or bankruptcy of the Company or the counterparties. In addition the Company and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

#### Accounting classifications and fair values

#### Fair value versus carrying amounts

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet, are as follows. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value. For the current financial year, the fair value disclosure of lease liabilities is not required.

|  | _  | -                             | _   | _  | (2,415,113)                                   | (2,415,113)       |                     |                     |                     |                   |

\* Trade and other receivables exclude tax receivables.
\*\* Trade and other payables exclude accrued compensation.

#### Accounting classifications and fair values (continued)

#### Fair value hierarchy

During the financial year, there were no transfers between Levels 1, 2 and 3.

#### Financial instruments measured at fair value

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the methods outlined below. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

#### (i) FVOCI debt securities

FVOCI debt securities consists of U.S. Treasury securities and U.S. government-sponsored debt securities. The fair value of U.S. Treasury securities is determined by reference to their quoted prices in active markets at the reporting date. The fair value of U.S. government-sponsored debt securities is based on quoted prices in active markets for similar assets. The pricing data obtained from external sources is reviewed internally for reasonableness, compared against benchmark quotes from independent pricing sources, then confirmed or revised accordingly.

#### (ii) Derivatives

Forward exchange contracts are valued using valuation techniques and market observable inputs. The valuation technique applied is the forward pricing model, using present valuation calculations. The model incorporates various inputs including foreign exchange spot and forward rates, interest rate and forward rate curves.

#### (iii) Investments in equity securities

The Level 3 fair value of the FVOCI investment was determined based on a market approach using comparable industry EBITDA multiples.

....

**•** ·

. ..

# 17 Financial risk management (continued)

#### Financial instruments not measured at fair value

The following table shows the valuation technique and the significant unobservable inputs used in the determination of fair value of the Level 3 financial instruments:

| Туре   | Valuation<br>technique   | Significant<br>unobservable inputs | Inter-relationship between<br>significant unobservable<br>inputs and fair value<br>measurement |
|--|--|------------------------------------|--|
| Volume and<br>support<br>incentives<br>(non-current) | Discounted cash<br>flows: The<br>valuation model<br>considers the<br>present value of<br>expected payments,<br>discounted using an<br>adjusted discount<br>rate. |                                    | • The estimated fair value would increase if the adjusted discount rate was lower.             |

#### Financial instruments for which fair value is equal to the carrying amount

The carrying amounts of financial assets and liabilities with a maturity of less than one year (including trade and other receivables (current), cash and cash equivalents, customer collateral, trade and other payables (current) and volume and support incentives (current)) are assumed to approximate their fair values because of the short period to maturity.

The carrying amounts of trade and other receivables (non-current) and trade and other payables (non-current) with maturity of more than one year approximate their fair values as the effect of discounting is insignificant.

# 18 Revenue

Revenue comprises the following:

|  | 2023        | 2022        |
|--|-------------|-------------|
|  | US\$'000    | US\$'000    |
| Revenue from contracts with customers: |             |             |
| Service fees                           | 2,061,404   | 1,796,735   |
| Data processing fees                   | 1,912,023   | 1,542,134   |
| International transaction fees         | 2,112,364   | 1,426,342   |
| Royalty fees                           | 165,864     | 162,769     |
| Other revenues                         | 363,844     | 262,672     |
| Volume and support incentives          | (2,517,830) | (1,905,366) |
|  | 4,097,669   | 3,285,286   |

# **19** Net finance income

|                               | 2023<br>US\$'000 | 2022<br>US\$'000 |

# 20 Income tax (credit)/expense (continued)

#### Reconciliation of effective tax rate

|   | 2023<br>US\$'000       | 2022<br>US\$'000    |
|---|------------------------|---------------------|
| Profit before income tax  | 3,134,918              | 2,425,914           |
| Tax calculated using Singapore tax rate of 17% (2022: 17%)<br>Tax exempt income         | 532,936<br>(13)        | 412,405 (13)        |
| Non-deductible expenses   | 4,921                  | 9,075               |
| Effect of concessionary tax rate<br>(Tax credit)/tax arising from foreign jurisdictions | (476,625)<br>(105,105) | (377,568)<br>85,960 |
| Over provided in prior years<br>Deferred tax expense arising from change in tax rate    | (420)<br>(5,273)       | (145)               |
| Others  | 109 (49,470)           | 376                 |
|   | (49,470)               | 150,090             |

The Company has been granted a tax concession up to 30 September 2023, subject to certain terms and conditions with which the Company is complying.

During the year, further information was obtained and developments arose in a foreign jurisdiction which led the Company to re-evaluate its tax position in that jurisdiction and, as a result, to reverse a part of its tax liability.

# 21 **Profit for the year**

The following items have been included in arriving at profit for the year:

|  | 2023<br>US\$'000 | 2022<br>US\$'000 |
|--|------------------|------------------|
| Contribution to defined contribution plan, included in<br>staff costs<br>Loss on disposal of property, plant and equipment | 24,266           | 23,228<br>48     |

# 22 Share-based payments

The Company's ultimate holding company, Visa Inc., granted non-qualified stock options ("options"), restricted stock units and performance-based shares to employees of its subsidiaries under Visa Inc. 2007 Equity Incentive Compensation Plan ("EIP"). The EIP will continue to be in effect until all of the common stock available under the EIP is delivered and all restrictions on those shares have lapsed, unless the EIP is terminated earlier by the ultimate holding company's board of directors. No awards may be granted under the plan on or after 10 years from its effective date.

#### **Options (equity-settled)**

Options issued under the EIP expire ten years from the date of grant and vest rateably over three years from the date of grant, subject to earlier vesting in full under certain conditions specified in the award agreement.

#### **Options (equity-settled) (continued)**

The fair value of each stock option was estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

|  | 2023    | 2022    |
|--|---------|---------|
| Expected terms (in years) <sup>(1)</sup>       | 4.17    | 4.11    |
| Risk-free rate of return <sup>(2)</sup>        | 3.95%   | 1.05%   |
| Expected volatility <sup>(3)</sup>             | 28.6%   | 27.09%  |
| Expected dividend yield <sup>(4)</sup>         | 0.85%   | 0.74%   |
| Weighted-average fair value per option granted | \$57.29 | \$43.16 |

<sup>(1)</sup> Based on Visa. Inc.'s historical option exercises and those of a set of peer companies that management believes is generally comparable to Visa.

- <sup>(2)</sup> Based upon the zero coupon U.S. treasury bond rate over the expected term of the awards.
- <sup>(3)</sup> Based on the average of Visa Inc.'s implied and historical volatility. As Visa Inc.'s publicly traded stock history is relatively short, historical volatility relies in part on the historical volatility of a group of peer companies that management believes is generally comparable to Visa Inc.
- <sup>(4)</sup> Based on Visa Inc.'s expected annual dividend rate on the date of grant.

The following table summarises the Company's stock options activities for the year ended 30 September:

|                                | Options<br>2023 | Weighted<br>average<br>exercise price<br>2023 (US\$) | Options<br>2022 | Weighted<br>average<br>exercise price<br>2022 (US\$) |
|--------------------------------|-----------------|--|-----------------|--|
| Outstanding at beginning       |                 |  |                 |  |
| of the year                    | 205,921         | 135.28   | 190,717         | 119.76   |
| Granted                        | 25,812          | 210.80   | 26,473          | 200.86   |
| Exercised                      | (54,552)        | 103.97   | (21,924)        | 30.64  |
| Transferred from a related     |                 |  |                 |  |
| corporation                    | 7,471           | 181.29   | 10,655          | 34.85  |
| Outstanding at end of the year | 184,652         | 156.95   | 205,921         | 135.28   |

The options outstanding at 30 September 2023 have an exercise price in the range of US\$62.47 to US\$210.80 (2022: US\$49.35 to US\$207.57) and the weighted average remaining contractual life of 5.81 years (2022: 5.69 years).

The weighted average share price at the date of exercise for share options exercised in 2023 was US\$236.93 (2022: US\$210.87).

At 30 September 2023, there was US\$647,485 (2022: US\$448,756) of total unrecognised compensation cost related to non-vested stock options. The cost is expected to be recognised over a weighted average period of approximately 1.34 years (2022: 1.19 years).

#### Restricted Stock Units ("RSUs") (equity-settled)

RSUs issued under the EIP generally vest rateably over three years from the date of grant, subject to earlier vesting in full under certain conditions specified in the award agreement.

Upon vesting, RSUs can be settled in the ultimate holding company's class A common stock on a one-for-one basis or in cash, or a combination thereof, at the ultimate holding company's option. The Company does not currently intend to settle any RSUs in cash. During the vesting period, RSU award recipients are eligible to receive dividend equivalents, but do not participate in the voting rights granted to the holders of the underlying class A common stock.

The fair value of RSUs is calculated using the closing price of the ultimate holding company's Class A common stock on the date of grant.

The following table summarises the Company's RSUs activities for the year ended 30 September:

#### Restricted stock units

|                                 | Units<br>2023 | Weighted<br>average<br>grant date<br>fair value<br>2023 (US\$) | Units<br>2022 | Weighted<br>average<br>grant date<br>fair value<br>2022 (US\$) |
|---------------------------------|---------------|--|---------------|--|
| Outstanding at beginning        |               |  |               |  |
| of the year                     | 307,041       | 202.23   | 257,419       | 187.90   |
| Granted                         | 208,121       | 212.96   | 197,545       | 202.99   |
| Forfeited/expired               | (12,289)      | 208.58   | (17,233)      | 199.63   |
| Vested                          | (129,902)     | 198.40   | (122,002)     | 174.67   |
| Transferred from/(to) a related |               |  |               |  |
| corporation                     | 3,305         | 206.88   | (8,688)       | 186.95   |
| Outstanding at end of the year  | 376,276       | 209.32   | 307,041       | 202.23   |

At 30 September 2023, there was US\$41,487,111 (2022: US\$33,366,432) of total unrecognised compensation cost related to non-vested RSUs. The cost is expected to be recognised over a weighted average period of approximately 1.40 years (2022: 1.49 years).

#### Performance-based shares ("PBSs") (equity-settled)

PBSs issued under the EIP generally vest rateably approximately over three years from the date of grant subject to the achievement of both performance and market conditions as specified in the award agreement. The performance condition is based on the ultimate holding company's earnings per share target and the market condition is based on the ultimate holding company's total shareholder return ranked against that of other companies that are included in the Standard & Poor's 500 Index.

The fair value of the PBSs, incorporating the market condition, is estimated on the date of grant using the Monte Carlo simulation model.

#### Performance-based shares ("PBSs") (equity-settled) (continued)

The following table summarises the Company's PBSs activities for the year ended 30 September:

| Performance-based shares       | Units<br>2023 | Weighted<br>average<br>grant date<br>fair value<br>2023 (US\$) | Units<br>2022 | Weighted<br>average<br>grant date<br>fair value<br>2022 (US\$) |
|--------------------------------|---------------|--|---------------|--|
| Outstanding at beginning       |               |  |               |  |
| of the year                    | 27,290        | 206.14   | 24,284        | 210.03   |
| Granted                        | 10,084        | 213.89   | 9,932         | 185.09   |
| Forfeited/expired              | (906)         | 201.59   | (1,207)       | 135.93   |
| Vested                         | (5,114)       | 201.69   | (5,719)       | 200.90   |
| Outstanding at end of the year | 31,354        | 209.50   | 27,290        | 206.14   |

At 30 September 2023, there was US\$Nil (2022: US\$Nil) of total unrecognised compensation cost related to non-vested PBSs. The cost is expected to be recognised over a weighted average period of approximately Nil years (2022: Nil).

#### **Employee Stock Purchase Plan (equity-settled)**

In January 2015, Visa Inc. approved the Employee Stock Purchase Plan (the "ESPP"), under which substantially all employees are eligible to participate. The ESPP permits eligible employees to purchase the ultimate holding company's Class A common stock at a 15% discount of the stock price on the purchase date with no look-back option, subject to certain restrictions. A total of 20 million shares of the ultimate holding company's Class A common stock have been reserved for issuance under the ESPP.

Under the terms of the ESPP, employees can elect at each offering to have up to 10% of their eligible compensation withheld to purchase the ultimate holding company's Class A common stock. A one-time decrease in the percentage withholding is allowed but not an increase during the offering period. Upon enrolment, participants are required to remain in service or employed from the offering date to purchase date to be able to exercise their purchase rights. The ESPP's offering period has a duration of 6 months and allows monthly purchase over the offering period. The employees are required to hold the common stock purchased for 12 months from the purchase date, except for certain conditions such as employee termination, change of control, etc., as stipulated in the ESPP agreement. Participants are allowed to withdraw from the ESPP prior to purchase date and any withholding contributions will be refunded.

The fair value of the purchase rights is determined on the offering date calculated as 15% discount multiplied by the offering date stock price and the estimated number of shares to be purchased. Expected dividends are not incorporated into the measurement of fair value. Compensation cost is recognised based on a graded vesting method over the offering period.

As at 30 September 2023, the number and weighted average fair value of shares purchased was 95,641 (2022: 86,909) and US\$190.94 (2022: US\$173.49).

The components of share-based compensation expense during the year ended 30 September are summarised below:

|         | 2023<br>US\$'000 | 2022<br>US\$'000 |
|---------|------------------|------------------|
| RSUs    | 33,449           | 25,783           |
| Options | 1,517            | 1,111            |
| PBSs    | 1,862            | 1,408            |
| ESPP    | 3,689            | 3,069            |
|         | 40,517           | 31,371           |

#### 23 Leases

#### Leases as lessee (FRS 116)

Information about leases for which the Company is a lessee is presented below.

#### **Right-of-use assets**

Right-of-use assets related to leased properties that do not meet the definition of investment property are presented as property, plant and equipment (see Note 4).

|                                  | Leased premises |          |
|----------------------------------|-----------------|----------|
|                                  | 2023            | 2022     |
|                                  | US\$'000        | US\$'000 |
| Balance at 1 October             | 59,135          | 76,325   |
| Depreciation charge for the year | (17,184)        | (17,190) |
| Balance at 30 September          | 41,951          | 59,135   |

#### Amounts recognised in profit or loss

|   | 2023<br>US\$'000 | 2022<br>US\$'000 |
|---|------------------|------------------|
| Leases under FRS 116                          |                  |                  |
| Interest on lease liabilities                 | 1,000            | 1,349            |
| Amounts recognised in statement of cash flows | 2023<br>US\$'000 | 2022<br>US\$'000 |
| Total cash outflow for leases                 | 18,011           | 20,885           |

# 23 Leases (continued)

#### **Extension options**

Certain property leases contain extension options exercisable by the Company up to one year before the end of the non-cancellable contract period. Where practicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at lease commencement date whether it is reasonably certain to exercise the extension options. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

The Company has estimated that the potential future lease payments, should it exercise the extension options, would result in an increase in lease liability of US\$45,800,000 (2022: US\$41,700,000).

# 24 Related parties

#### Identification of related parties

For the purpose of these financial statements, parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or at least a control and a significant influence by a common related party. Related parties may be individuals or other entities.

#### Transactions with related parties

Other than those disclosed elsewhere in the financial statements, transactions with related parties are as follows:

|  | 2023<br>US\$'000                    | 2022<br>US\$'000                    |
|--|-------------------------------------|-------------------------------------|
| Intercompany service fee income  |                                     |                                     |
| - From related corporations  | 342,186                             | 275,058                             |
| - From subsidiaries  | 20,633                              | 17,770                              |
|  | 362,819                             | 292,828                             |
| <ul><li>Intercompany service fee expense</li><li>To related corporations</li><li>To subsidiaries</li></ul> | (635,021)<br>(123,314)<br>(758,335) | (553,031)<br>(114,571)<br>(667,602) |

# 24 Related parties (continued)

#### Key management personnel

|                                      | 2023<br>US\$'000 | 2022<br>US\$'000 |
|--------------------------------------|------------------|------------------|
| Short-term employee benefits         | 13,839           | 14,786           |
| Share-based payment (equity-settled) | 7,873            | 5,399            |
|                                      | 21,712           | 20,185           |

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly. The following persons are considered as key management personnel:

- (i) directors of the Company; and
- (ii) members of the Company's key management team.

During the year, 57,562 (2022: 48,322) shares in Visa Inc. were granted by the Company to key management personnel. The shares were granted on the same terms and conditions as those offered to other employees of the Company as described in Note 22. At the reporting date, 263,750 (2022: 254,633) of those shares were outstanding.

Remuneration fees of certain key management personnel are borne by related parties and not recharged to the Company. The remuneration is not in relation to services rendered to the Company.

# 25 Subsequent events

Pursuant to a directors' resolution in writing dated 25 October 2023, the Company declared an interim dividend amounting to US\$800,000,000 to its immediate holding company which was paid fully in cash.
